MARCH – APRIL 2014

SEMESTER IN REVIEW: PLEDGING SEASON 2014

We would like to welcome the Iron Class into the circle of Rho Pi Phi. It has been quite the journey for these 18 pledges, but we are excited to see their growth and leadership in upholding our values. Thank you all for another successful pledging season. Once again, congratulations!

CLIPBOARDS: PAST AND PRESENT

Bryant “Showerhead” Lee (VANADIUM) 3rd Year Pharmacy (c/o 2014)

1. What are your plans for the next year?
I was accepted as one of the residents for Kaiser Permanente – San Jose PGY1 Residency Program! It's going to be a lot of long nights and hard work, but I'm very excited to start!
2. How did Rho Pi Phi make an impact on your life?
Before I joined this fraternity, I was a much more shy and reserved person. Within a month of my association with Rho Pi Phi, these traits were forcibly reversed as I was thrust into a performance alongside my brothers in front of the entire pharmacy school student body. This is just one example of the long chain of unforgettable memories I have received from Rho Pi Phi during my run as an active member. This fraternity has also offered me a great amount of character development on a personal and professional level. Accepting my bid for Rho Pi Phi was one of the best decisions of my life.
3. Would you rather lose the ability to sing in the shower or only be able to have boba once a year?
Definitely singing in the shower. If you have seen the aforementioned performance, you can easily tell I am barely able to sing to begin with, so it really would not be that much of a loss. But on the other hand, choosing to limit my exorbitant consumption of tapioca would have such a positive effect on my health... I'll go mull this over at TenRen's.

Jonathan “H2BRO” Lee (IRON) Freshman

1. What are you excited about for RPP?
I want to see how I will grow as I get more involved in the fraternity.
2. How and what got you to beat box?
I got into beat boxing about 4-5 years ago during the summer before high school. I saw a clip on YouTube of someone beat boxing and I instantly became interested in learning. During that summer, I learned through YouTube and have been practicing since then.
3. What makes you smile?
Friends!

If you have any questions or suggestions for the next issue, please e-mail rpplsd@gmail.com with “RPP Clipboard” as the subject. Thank you!
